EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Cancel claims 16-28.

2. The following is an examiner's statement of reasons for allowance: Applicant's arguments, see Remarks, filed 06/30/2005, with respect to claims 1-15 have been fully considered and are persuasive. The Rejection under 35 USC § 102 (b) and 103 (a) of claims 1-15 has been withdrawn.

Courtney (WO 97/25551) does not teach an energy dissipative element comprising a closed elastic envelope containing an porous body of elastic material defined by a network of open cells configured for passing viscous liquid between them, said viscous liquid contained within said envelope and filling at least a portion of said network of open cells, and a compressible gas occupying a portion of an internal volume of the envelope. Examiner agrees that Courtney does not teach a porous body of elastic material, but rather an envelope filled with a plurality of elastic open shells filled with viscous liquid.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
